

360 Financial Modeling and Valuation

Section No.	Section Name	Lecture no.
01	Introduction	0101 Course Introduction
01	Introduction	0102 Financial Statement Analysis- Breaking Down
01	Introduction	0103 Working with Financial statements - Part 1
01	Introduction	0104 Activity - Basic Level
01	Introduction	0105 Working with Financial statements - Part 2
01	Introduction	0106 Activity - Advance Level
01	Introduction	0107 Ratio Analysis Overview
01	Introduction	0108 Valuation Overview
01	Introduction	0109 Relative Valuation Overview
02	Income Statement	0201 Creating an Income Statement
02	Income Statement	0202 Continuing with assumptions
02	Income Statement	0203 Building the format of the Income Statement
02	Income Statement	0204 Building Formulas to Forecast Tax Expense and Minority Interest line Item
02	Income Statement	0205 Working with CAGR Calculation
03	Revenue Model	0301 Overview of the Revenue Model
03	Revenue Model	0302 Building a Revenue Model
03	Revenue Model	0303 Calculating Average Revenue Per Store
04	Balance Sheet	0401 Constructing Balance Sheet Format_1
04	Balance Sheet	0402 Developing Balance Sheet and its Elements
04	Balance Sheet	0403 Working with CAGR and Trend Analysis Calculation
04	Balance Sheet	0404 Building Assumption for the Asset Side of the Balance Sheet
04	Balance Sheet	0405 Forecasting the Balance Sheet for the Liability Side
04	Balance Sheet	0406 Other Liability Items
05	Cash Flow Statement	0501 Introduction to the Cash Flow Statement
05	Cash Flow Statement	0502 Designing and Structuring the Cash Flow Statement
05	Cash Flow Statement	0503 Linking the Line Items in the cashflow
06	Working Capital, Capex, and Depreciation	0601 Dealing with Working Capital, Capex, and Depreciation (WCCD)
06	Working Capital, Capex, and Depreciation	0602 Getting the Format Ready - Approach 1
06	Working Capital, Capex, and Depreciation	0603 Building Formula for Each Line Item
06	Working Capital, Capex, and Depreciation	0604 Getting the Format Ready - Approach 2
06	Working Capital, Capex, and Depreciation	0605 Forecasting Current Assets
06	Working Capital, Capex, and Depreciation	0606 Creating a Waterfall Formula
06	Working Capital, Capex, and Depreciation	0607 Forecasting Line items in the Working Capital Calculations
06	Working Capital, Capex, and Depreciation	0608 Forecasting Working Capital Schedule
06	Working Capital, Capex, and Depreciation	0609 Forecasting Capex and Depreciation Schedule
07	DCF Valuation	0701 Introduction to DCF Method
07	DCF Valuation	0702 Forecasting of the Dividend Schedule
07	DCF Valuation	0703 Valuation
07	DCF Valuation	0704 Compounding, Discounting and Layers of Complexity of the DCF
07	DCF Valuation	0705 Calculating the Cost of Each Capital
07	DCF Valuation	0706 Building the Valuation Sheet
07	DCF Valuation	0707 Calculating the Cash Flows Related to DCF
07	DCF Valuation	0708 Building Sensitivity Analysis and Schedule of Valuation
07	DCF Valuation	0709 Session Conclusion
